

Year 6 Spring Term Newsletter 2022

I hope everybody had a relaxing time over Christmas. I would like to thank you all for your thoughtful cards and gifts. This half term, our value is Wisdom and after half term our value will be Hope.

English

This term we are exploring 'The Princess Blanket' by Carol Ann Duffy. We will compare this new book with our previous learning on Shakespeare's 'Romeo and Juliet'. Both books explore the depths of human fears, frailty, and love. We will be writing letters of advice and news reports. By Spring half-term, we will have created our own version of 'The Princess' Blanket' fairy tale by developing our own characters and creatures.

After half term, we will look at non-fiction writing through the book 'Can We Save the Tiger' by Martin Jenkins.

Every day we will start our English lesson by learning specific areas of grammar and we will apply these to our writing.

Please continue to read regularly at home with your child as this is vitally important for the development of their reading and writing skills.

R.E.

This term the children will be learning about how faith has changed in Surrey. We will be looking at census information and analyzing all the different religions across the county. To enhance our understanding about changes in our local church, we will be researching different places of worship in our community.

After half term, we will also be studying the Easter Story in more detail and looking particularly at the individuals involved in the events leading up to the Crucifixion.

Maths

In Maths, we are concentrating on Number and Place Value, Fractions, Ratio and Proportion and Geometry. It is very important that children feel confident in their knowledge of numbers and their properties. Our daily Number Club sessions have been fantastic and everybody has improved their timetables knowledge, using both multiplication and division. To help them improve further they should practise their times tables at home as much as possible. It is important that the children learn them 'off by heart' so that they can perform rapid recall of any question.

History

Our main topic is 'Medicine through history'. We will study some early theories of disease. We will describe some early medical treatments and explain why they were dangerous. We will analyse some of the contributions made by Edwin Chadwick to the development of medicine and we will explain the impact of Joseph Lister's pioneering work in antiseptic surgery.

Geography

Our main topic in geography is 'How on Earth? Our world from the International Space Station'. We will be looking at satellite images of the globe and raise enquiry questions about how they have been developed or formed.

After half term, our topic is 'How do we impact on our landscape?'. We will look at why the landscape are continually changing due to the interaction of people or natural processes.

P.E.

In PE this term, we are focusing on Netball and Basketball. PE lessons involve both physical and mental challenge. They also involve social interaction with others and developing life skills such as resilience, co-operation and team-work.

Please ensure children bring the correct P.E. kit to school each week: navy blue shorts/tracksuit bottoms and yellow t-shirts.

Please make sure all items of your child's P.E. kit are named. Year 6 children will take P.E. kit home on Fridays to be cleaned, and it must come back every Monday.

Wellbeing

At Nutfield Church Primary School we are encouraging our children to listen and respond with thoughtfulness and respect. This year we will continue to learn about the importance of self-respect and how this **links to the children's own happiness.** In P.S.H.E. we will explore the meaning of extremism and its consequences. We will also explore how conflict can be managed or avoided.

Dates for your diary

19.1.22: Year 6 Class Collective Worship -9.00 am

25.1.22: PTFA Cinema Night -3.15pm - 5.30pm

8.2.22: Safer Internet Day

Half Term Monday 14th February - 18th February 2022

3.3.22: World Book Day

22-25.3.22: **Parents' and Carers' Evening** - 3.30pm-6.00pm

Science, Computing and Design and technology

Our science topic is 'light'. Children will learn that light travels in straight lines. Using this idea, the children will learn that objects are seen because they give out or reflect light into the eye. This explains why shadows have the same shape as the objects that cast them.

After half term, our topic will be 'Electricity'. We will consolidate the children's knowledge of materials which are electrical conductors, and extend their understanding of ways in which the brightness of bulbs or the speed of motors in a circuit can be changed. Children will also learn how to use conventional symbols for communication. In D.T the children will use a wider range of tools and equipment to create an electric circuit.

In Computing, the children will learn how to use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

Homework

Homework will be sent home on Friday and **must be handed back in by the following Thursday to be checked.** Spellings will be sent home on Friday and tested the following Thursday. Please help your child to learn their spellings. It is important that the children take pride in their homework.

Expressive Arts

In Art this term we will be looking at sculpture and textiles. In our lessons we will learn weaving and sewing skills. Later in the term, we will also be looking at European artists like Van Gogh who was a Dutch post-impressionist painter.

And finally...

Thank you very much for your support. We all know Year 6 is very a special year for our children. If you have any questions or concerns please feel free to catch me at the end of the day. I am very happy to answer your queries and it is always good to see you! If you would like to speak with me more privately, please see me or email the school office to arrange an appointment.
