

## Year 3 Homework letter - Friday 05.05.2023

I do hope you all enjoyed your bank holiday weekend. It was great to hear all the extra things that the children got up to. I do hope you enjoy this bank holiday weekend celebrating the coronation of King Charles. I'd love to see any photos of any fun activities you all get up to.

### English:

This week Year 3 continued to look at our new book 'Flotsam' by David Wiesner. This week the children started by planning their innovated sequel following a new character who discovered the mysterious camera within the other flotsam at the beach. Their focus was on the use of fronted adverbials, noun phrases, use of preposition, and use of powerful verbs within their writing.

### Maths:

This week we have turned our focus to time. Over the next two weeks we will continue to look at time within our maths lessons. As a class we will cover: telling the time in intervals of 5, in one minute intervals, using AM and PM; telling the time on an analogue clock; telling the time on a digital clock; duration of events and timing how long events last. Please do help as much as you can at home with this, as telling the time is also a necessary life skill.

### P.E. kits, water bottles and sun hats

As we approach Summer, we ask that you please send your child to school with a water bottle which we can take outside at lunchtime so they can stay hydrated. In very warm weather, please make sure they also come to school with a hat and wearing suncream. Please could I also remind you that Year 3 do P.E on a Monday, therefore all children are required to bring their kit in at the start of every week.

We hope you all have a restful weekend.  
Mr Bowen, Mrs Boyle and Mrs Russell.  
The Year 3 Team

### Homework

**Maths:** This week's Maths homework can be found on my maths and will be on Time.

**Spellings:** Use the sheet provided to complete this week's spellings.

**Science:** This term in science we have been looking at the topic 'animals including humans'. We have been paying particular attention to the importance of diet for the human body. The homework over the next two weeks will be to research a healthy meal, find a recipe and cook it! The children will need to hand-write their chosen recipe and take a picture of themselves with the finished product. I will then stick this into their science books and I hope to create a classroom display celebrating their achievements. I have included a template for your convenience. You can however create your own if you wish.

This will be due in on Wednesday 17th May. Please keep the recipe work and picture safe and lose within their homework books.

**Coding:** As part of our computing curriculum this summer term we will be focusing more on coding. Last week I have set three tasks to be completed on PurpleMash. These are called 'Fun with fish, Bubbles and Air traffic controller'. These can all be found in your to-do list. If you have completed these three, I have set three more on PurpleMash called: Snail Race, Vehicles and Turtle.

### Dates:

Monday 8<sup>th</sup> May - Bank holiday

Friday 26<sup>th</sup> May - Mufti Day. Bring a bottle for the Summer Garden Party.
