

Year 3 Homework letter - Friday 19.05.2023

On Wednesday, as a school, we celebrated National Numeracy Day. In year three the children really enjoyed Emojos addition and subtraction code breaking questions but particularly

English:

Year 3 continued to look at the book 'Flotsam' by David Wiesner. This week the children have been learning to write persuasively with the aim of convincing the reader to protect the world's oceans. This week we have written persuasive letters and designs, influential environment posters, sales adverts and imaginary television skits.

Maths:

This week we continued to focus on time. As a class we covered: telling the time in intervals of five and one minute intervals, using AM and PM; telling the time on an analogue clock; telling the time on a digital clock; duration of events and timing how long events last. Please do help as much as you can at home with this, as telling the time is also a necessary life skill.

Biodiversity and Sustainability week— Wednesday 7th June —Friday 9th June

During this week all the children will be able to participate in an array of diverse, engaging and educational activities which will raise their awareness of environmental issues. The week will finish with a 'Trashion show' where each class will have the chance to design and make an outfit out of recycled materials linked to the theme of 'The Kings Coronation.'

Please can your child start to bring in recycled materials for this outfit e.g. bottle tops, bubble wrap, tinfoil, plastic bags, cereal boxes etc.

Thank you in advance for your help and support.

We hope you all have a restful weekend.
Mr Bowen, Mrs Boyle and Mrs Russell.
The Year 3 Team

Homework

Maths: This week's Maths homework can be found on my maths and will again be on Time.

Spellings: Use the sheet provided to complete this week's spellings.

Times Tables Year 3 Challenge: In school over the last few weeks I have been challenging the Year 3 children on TimesTablesRockstars. The class has gone head to head against their classmates and even myself. They have really enjoyed getting to practice their timetables using the program on the iPad. At the end of the Year I will be handing out rewards and certificates to all those who have practiced their multiplications using the program. I encourage the children to log onto TTS as often as possible to use the games available.

TTS Homework: Please log onto Times Tables Rock Stars and compete in the competition against Year 3. The competition works around an average score per class—not ability; so the more the children play and log on, the higher the score.

All the children have to do for their score to count is to log on and play any of the games.

Dates:

Non-Uniform Day for bottles for the Summer Garden Party - Friday 26th May
